Entries needing information from you before they're publication-ready

- **Aujla-Sidhu (2022)** — page range for the *Journalism Studies* article isn't given anywhere in the original entry; needs adding.
- **Gibbs (2024)** — only a surname is given for the editor; needs a first initial.
- **Powell & Jung (2026)** and **Walsh (2023)** — the original URLs include long tracking strings (`?dm=...`, `?e=...`); I've trimmed these to the clean permanent link, which is standard APA practice, but do check they still resolve.
